What is the FIU Event Platform?

The GFJC event platform is a versatile online platform designed to host a wide range of events, catering to both small and large audiences. It seamlessly combines virtual, in-person, and hybrid elements to provide a comprehensive event experience.

Key features include live-streaming capabilities, interactive engagement tools, and scalability to accommodate various event sizes and formats. Whether for small gatherings or large conferences, this platform offers a flexible and immersive solution for hosting events in the digital realm while incorporating in-person components for hybrid experiences.

Event Platform Perks

- Customized for virtual, in-person, and hybrid academic events
- End-to-end support from abstract submission to certificate of attendance
- Virtual booths for posters and sponsors
